

About Argevide NOR-STA

Argevide NOR-STA is a web application for assurance case management.

- ✓ Develop arguments and share with others,
- ✓ Integrate argument with evidence in your repositories,
- ✓ Make assessment and communicate the results,
- ✓ Generate modular and GSN diagrams,
- ✓ Manage argument modules and use templates,
- ✓ Report the results online,
- ✓ Integrate assurance cases with other tools.

You will find more information about NOR-STA on our website: www.argevide.com.

NOR-STA Online Trainings

NOR-STA online courses give practical information how to manage assurance cases in NOR-STA.

The training program includes dedicated hands-on exercises.

Experienced course instructor will answer your questions and assist in exercises.

Each participant will receive electronic training materials and NOR-STA user account for the training, active also for 30 days after the training.
